Modena, 10th April 2017

Dear AMPERE member,
this year is really full of event related to RF and microwave technology applications!

This message to remind you that the AMPERE biennial conference will be organized in Delft (NL):

**AMPERE - 16th International Conference on Microwave and High Frequency Heating,
University of Technology, Delft, The Netherlands, 18-21 September 2017
(<http://www.ampere2017.nl/>)**

The Summer School, organized jointly with the European Society of Sonochemistry, will be held in Leuven (B):

**Summer School in Ultrasound and Microwaves for Chemical Processing – Ultrasound &
Microwave Technologies, KU Leuven, Belgium, 4-8 September 2017
(<http://summerschool.cosmic-etn.eu/>)**

I'd like to inform you that a new service has been implemented to the homepage of AMPERE EUROPE website:

the "EVENTS" page (<http://www.ampereurope.org/index-8.html>).

In this page we will collect the links to the event directly organized by AMPERE: biennial conferences, the Summer Schools and the GCMEA congresses.

Additionally, the Editor of the Newsletter, Prof. Eli Jerby, is preparing a new website for the Newsletter consultation. This new website, still under construction, is directly linked to AMPERE homepage under the word:

Newsletter (top right of the home page)

I hope to see you attending these events and actively propose further improvements of the website!

Wishing the best Easter Greeting to you and your families,

Cristina Leonelli

AMPERE EUROPE
President
