The Global Congress on Microwave Energy Applications (GCMEA) is the "Olympic Event" for worldwide researchers and engineers working on the relevant fields of microwave/RF power applications. It happens every 4 years in a different continent. Sichuan University together with the China Association of Microwave Power Applications (CAMPA) is pleased to announce that the 4th GCMEA will be kindly hosted in Chengdu, Sichuan, China during August 17-20, 2022.

Chengdu is the capital city of Sichuan Province, with a history of more than two thousand years and many cultural relics. It is usually associated with many tags, such as "the homeland of pandas", "city of gastronomy" and "tourist resort". Being an international city, people can take a comfortable and nonstop travel to Chengdu from all around the world. We are excited to invite you to Chengdu for this global congress.

The scope of the conference is concentrated on microwave energy applications, and includes:
